

Italy surely had better moments, but we are firmly convinced that it will be just a period and that our wonderful country is getting ready to shine again.

We want you to know that **our company is 100% operative** and we go on with the same tenacity that has distinguished us for over 35 years of activity as [leading DMC in the MICE industry and PCO agency since 1985](#). We owe it to our company, but also to our country.

Our teams are **focused on finding the best solutions** to let our clients enjoy safely the beauties of our country in next months and allow them not to stop their activities.

Don't hesitate to contact us to receive **professional advice about the real Italian situation from an internal and reliable point of view**.

We would be glad to give you all the information you need to plan your next team buildings, incentives and meetings safely in Italy to reward, train or drive cohesion both for clients or work teams.

Best regards,
